The Ilford Manual for 1935 gives two print developers, ID-23 and ID-24, suitable for producing warm-black to sepia to red tones on Clorona paper. The Ilford Manual also states that Clorona paper required a negative of "Fair contrast" when brown-sepia to red tones were desired. An ebook (short for electronic book), also known as an e-book or eBook, is a book publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices. Although sometimes defined as "an electronic version of a printed book", some e-books exist without a printed equivalent.
